

**NIRVANA  
GARDENS**

# The Client:

## Jordan Saul of Nirvana Gardening

- Trained Horticulturist
- Landscape Designer
- Rare Plant Specialist
- Self described plant “nerd and hippie”

# The Brief

To create an joyful but official landing for the landscaping business, Nirvana Gardens. This “digital garden” will allow customers, potential and existing, to find information regarding the business and act as a portfolio for the emerging landscape design side to the business.

Jordan has asked us to find fun ways to engage people on the page with reference to the joys of nature and personal gardens.

# Features

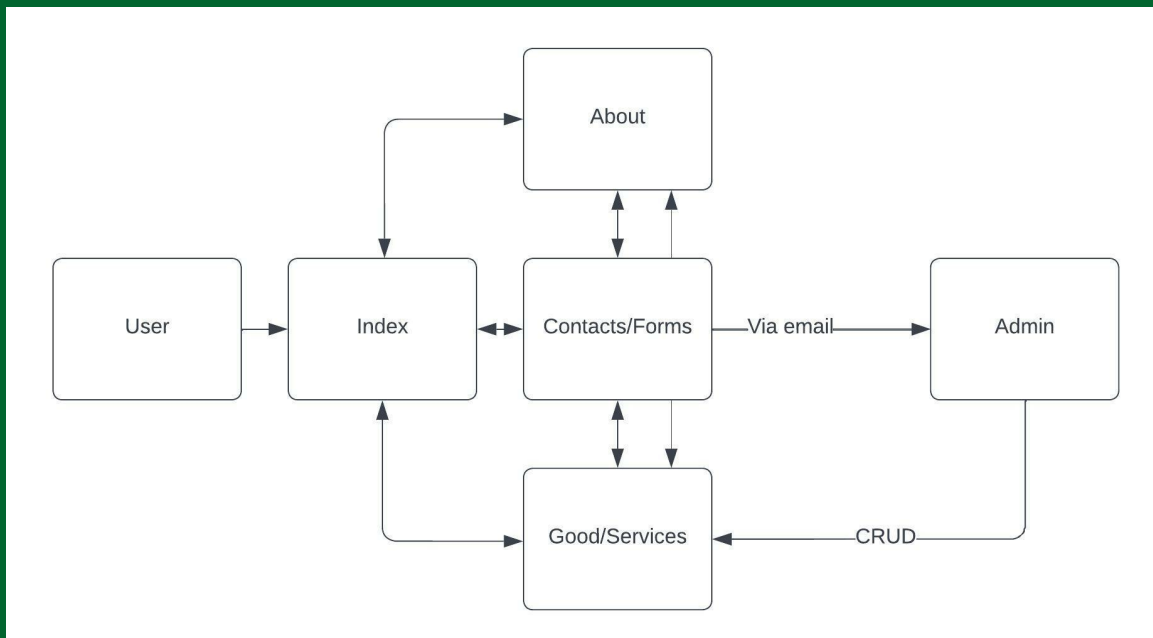

- Landing / Home page - Fun interactive elements
- About - Info about Jordans horticulture studies
- Contacts Details - Inquiry forms
- Design Services - Portfolio of previous work
- Maintenance Services - List of services

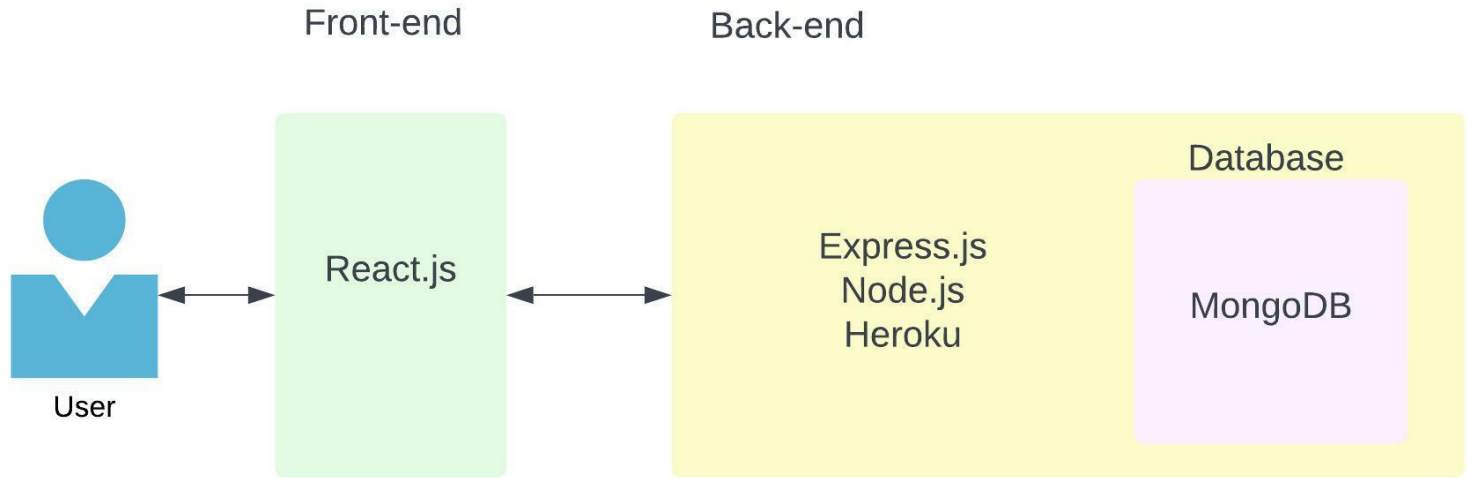

## Fun Features:

- Cursor that wriggles on click (Logo? Insects?)
- DIY garden game - upload and image of your your garden and drag and drop 'stickers' onto it -> downloadable branding collateral
- Interactive elements - insects fly on clicks, time of day sunshine, letter drop on homepage

# Dataflow Diagram

# App Architecture Diagram

# User Stories

## Hospitality / Public Business venue:

*As a busy inner city hospitality business with disposable income, We want to be able to enlist a contemporary landscape designer to update our tired outdoor area into an inviting space.*

# User Stories

High Income, Time poor new homeowners

*As a busy high earning couple, We want to re-do our new home garden through a landscaper and find examples of past client work for reference.*

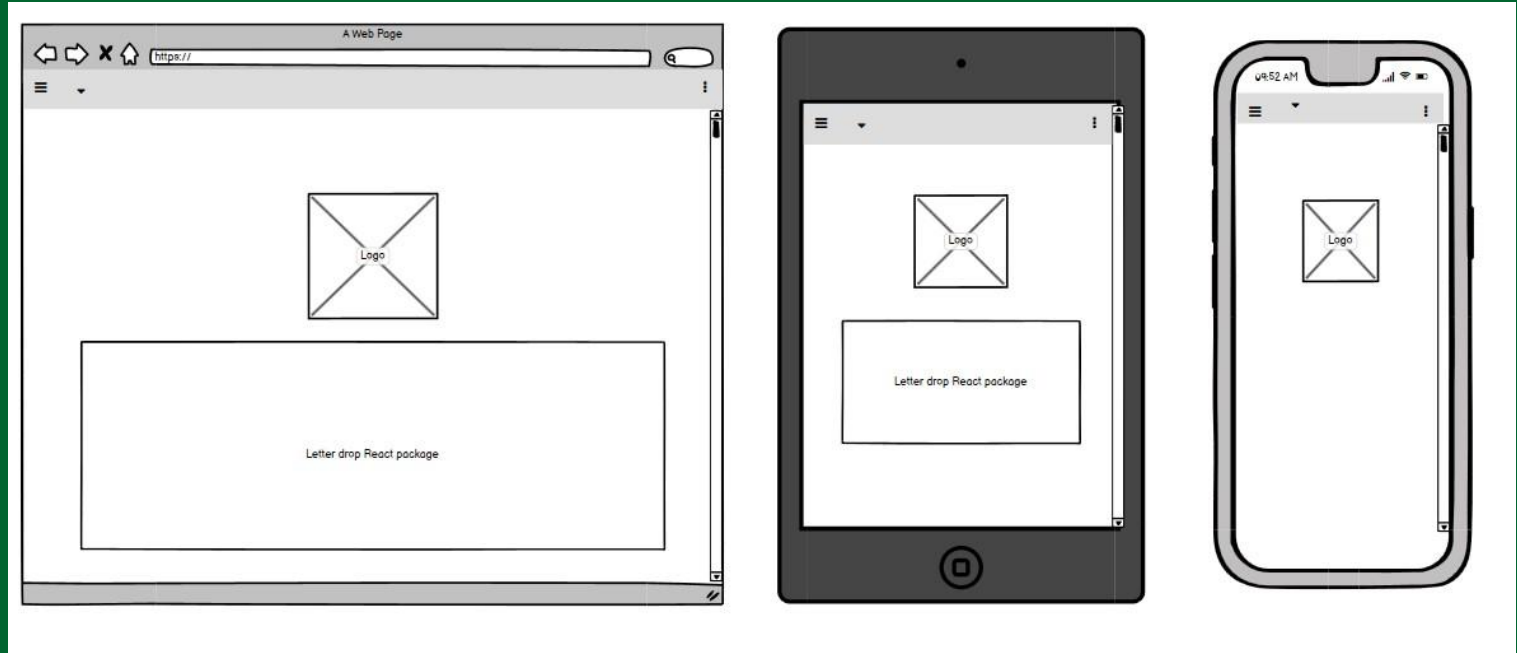

# User Stories

Mature aged folks

*As a retired person with low mobility, I want to have access to a gardeners service regularly for general maintenance and some light updating. Plus I love bees.*

The screenshot displays a Trello board for 'NirvanaGardening' with a Kanban workflow. The board is organized into seven columns: Backlog, Design, To Do, Doing, Done, Code Review, and Testing. Each column contains cards representing tasks, with some cards featuring attachments like images or diagrams.

- Backlog:** Contains one card titled 'Admin' with a 'Thinking' emoji icon.
- Design:** Contains three cards: 'R6 - Screenshots' (with a camera icon), 'Get digital content from Jordan' (with a butterfly icon), and 'Cool Packages' (with a person icon).
- To Do:** Currently empty, with a '+ Add a card' button.
- Doing:** Contains two cards: 'Presentation' (with a plant icon) and 'R4 - User Stories' (with a person icon).
- Done:** Contains five cards: 'R1 - Documentation' (with a document icon), 'R2 - Dataflow Diagram' (with a flowchart icon), 'R3 - App Architecture Diagram' (with a person icon), and 'R5 - Wireframes' (with a tree icon). The 'R1' card includes a diagram showing a flow from 'User' to 'Data' to 'Database' to 'API' to 'User'.
- Code Review:** Currently empty, with a '+ Add a card' button.
- Testing:** Currently empty, with a '+ Add a card' button.

The interface includes a top navigation bar with 'Trello' logo, 'Workspaces', 'Recent', 'Starred', 'Templates', and 'Create' buttons. A search bar is located on the right. The board is titled 'NirvanaGardening' and has a 'Morgan's Workspace' label. The 'Done' column has a 'Power-Ups' button and a 'Automation' button. The 'Code Review' and 'Testing' columns have '0/3' and '0/3' indicators respectively.
